

Product data sheet

GPD(A)/(G)/30/V2A/EPDM

1x(D)

GPD rubber press seal with 30 mm EPDM blank

Advantages and benefits:

- simple assembly through customized dimensions
- reliable and durable sealing of cables and pipes
- a divided version enables retrofitting
- use in core drillings within a concrete structure made of waterproof concrete (stress class 1 and 2 or FU wall sleeve required)

Technical details:

- gas- and watertight up to 2,5 bar
- single layer rubber blank with 30 mm
- the rubber is compressed by tightening the clamping nuts
- a divided version is available:
GPD(A)/G/30/V2A/EPDM
1x(D)

Material specification:

Metal press plates (V2A oder V4A), rubber blank (EPDM), threaded bolts and nuts (V2A oder V4A)

Test report:

This product has been tested and marked according to the FHRK standard 20/30

Versions:

Product	Description
GPD(A)/(G)/30/V2A/EPDM 1x(D)	(D) = outside diameter of the cable or pipe (G) = divided version
