

### Application range

- Suitable for all flat roof constructions
- For bitumen sheets and roof membranes that are approved with adhesive flange
- For roof entries according to DIN 18531

### Material specifications

- Gooseneck (galvanized)
- Sealing elements (EPDM)

### Technical information

- Gas- and watertight with suitable sealing inserts
- Storm-proof, UV- and weather-resistant
- Non-combustible (building material class A1)
- Height and direction in galvanized version can also be changed after installation and can be swiveled 360°
- Adhesive flange construction with 10 mm material thickness
- Mounting flange designed as adhesive flange 120 mm circumferential
- Optional: two sealing inserts to prevent condensation
- Optional: Available in V2A and V4A
- Height is not changeable for SHDD/(V2A/V4A)
- Direction can only be adjusted before installation for SHDD/(V2A/V4A)
